## ***OBITUARIES***

### ***GREGORY JUMP (1941-2015)***

Gregory Vern Jump, professor emeritus of economics at the University of Toronto, passed away surrounded by his family on November 5, ten days before his 74<sup>th</sup> birthday, after a five-year struggle with lung cancer and chronic obstructive pulmonary disease (COPD). Born in Willard, Ohio on November 15, 1941, Greg Jump graduated from Miami University in Oxford, Ohio, and earned his PhD in economics at the University of Michigan, Ann Arbor. After a year at the Wharton School at the University of Pennsylvania, he joined the faculty of the University of Toronto, where he taught economics for four decades. In the late 1970s and early 1980s, Greg Jump was a widely-recognized leader in the policy-oriented macroeconomic modelling of the Canadian economy at the University of Toronto's Institute of Policy Analysis, as a driving force in the creation of the University of Toronto Quarterly Forecasting model and the TRACE model and then in the 1990s of the FOCUS model of the Canadian economy (see the list of his selected journal articles below), working in the tradition of Lawrence Klein, the Nobel Prize-winning econometrician at the University of Pennsylvania (to whose *Festschrift* Jump contributed in 1983). In addition to publishing in scholarly journals, he also wrote or coauthored studies for the Economic Council of Canada, the Anti-Inflation Board, the Ontario Economic Council, and the (Macdonald) Royal Commission on the Economic Union and Development Prospects for Canada. According to the obituary in *The Globe and Mail* (November 9, 2015), "Greg was a serious man equipped with a mischievous sense of humour. His passions and interests were numerous and varied: he was a knowledgeable gardener, an avid

reader (especially of history), an amateur patissier, and a keen fisherman. He also enjoyed American candy and dry vodka martinis. But nothing gave him so much pleasure as the company of his family. He is survived by his beloved wife of 27 years, Sondra Sullivan; his daughters and stepdaughter, Christine Creighton, Nicole Smith and Lisa Richler; their husbands, Peter Creighton, Robert Smith, and Jacob Richler; and grandchildren, Simon, Max, Charlie and Nicholas. He is also survived by his siblings, Susan Tissue (and her husband, David), Jack Jump (and his wife, Yvonne) and Vicki Landis (and her husband, Terry). All will miss him badly. ... In lieu of flowers, the family suggests donations to The Canadian Lung Association.”

### ***MICHAEL (MIKE) MCCRACKEN (1940-2015)***

Michael Clark (Mike) McCracken, a pioneer of econometric modelling in Canada and for four decades CEO of Informetrica Ltd., died in Ottawa on September 28, 2015, at the age of 75, after returning home from dinner with friends. The Mike McCracken Award for Economic Statistics, endorsed by the Canadian Economics Association and presented at its annual meeting, was created in 2010 to recognize theoretical and applied contributions to the development or use of economic statistics in Canada (with the award’s namesake as the first recipient). In 2012, Mike McCracken received the Progressive Economists Forum’s biennial John Kenneth Galbraith Prize for “a lifetime contribution to economics and social justice.” As recipient of the third Galbraith Prize, he gave the Galbraith Lecture, which he entitled “The Search for Full Employment: My Continuing Battle for the Unemployed.” He was one of the founders of the Canadian Association

for Business Economics (CABE) in 1975, serving as CABE's president from 1979 to 1981 and again from 1988 to 1990 (and was also chair of the US Conference of Business Economists in 1994), and in 1991 was one of the founders of the Canadian Employment Research Forum (CERF), of which he was treasurer. Mike was also one of the first Canadian economists to appear on television, commenting regularly on federal budgets and elections. He served for many years on the national accounts advisory committee of Statistics Canada, and campaigned quietly and successfully for Statistics Canada to make its data widely and freely available.

Mike McCracken was born in Tulsa, Oklahoma, with Native American Muscogee (Creek) heritage on his mother's side, and grew up in Germany, Hawaii, California and Japan (his father was in the US military). He received his BA in economics from Rice University in Houston, Texas, 1961, and his MA in economics from Southern Methodist University in Dallas in 1964. While at Rice, he met and married Catherine Mary Doyle, who passed away in 2005 after 45 years of marriage; Mike will be buried next to her in Houston. In 1965, Arthur J. R. Smith, then chair of the Economic Council of Canada, brought Mike to Canada to work for the Council. Mike's time at the Council was interrupted from 1967 to 1970 when he fulfilled his military service obligations as a US Army captain seconded as an economist with the Central Intelligence Agency in Washington. From his return to the Economic Council in 1970 until he left to cofound Informetrica in 1972, Mike was the project manager in building the Canadian Disaggregated Inter-Departmental Econometric model (CANDIDE), the first large-scale, long-range, inter-industry model of the Canadian economy.

CANDIDE, with its disaggregation by industry and by region, province and territory, was a very large model: Model 1.1 had 2,049 equations.

Together with Carl Sonnen (whom he met at the Economic Council), Mike Cracken founded the Ottawa-based quantitative economic research, forecasting and consulting firm Informetrica Ltd. in 1972, and was its president and CEO until it wound up operations in 2013. Informetrica developed its own large-scale model of Canada and its provinces, The Informetrica Model (TIM), as well as national and provincial population calculator models, a Local Area Economic impact model, and the MOSAIC/SIMSYS software suite for building and maintaining large-scale econometric models. Many young economists who gained experience at Informetrica went on to careers in the federal government. In the words of Carl Sonnen, Mike McCracken “took leading-edge analytical techniques and applied them. That is my notion of a builder.”

Mike McCracken is survived by his partner of seven years, Carole Doucet, by his children Mary Margaret, George and Catherine (Cricket) McCracken, and his grandchildren Sebastian Doyle and Virginia (Gina) Sara McCracken. In lieu of flowers, the family requests donations to one of the University of Ottawa Heart Institute Foundation, the Ottawa Mission Foundation Food Services Training Program, or Cornerstone Housing for Women.

## ***CALL FOR PAPERS***

### ***50<sup>th</sup> Annual 2015 Canadian Economics Association (CEA) Annual Conference***

The CEA invites anyone wishing to present a paper at the 2015 Conference to submit an abstract by **Friday, February 6, 2016**. Paper submissions in English or French are accepted starting December 1, 2015 through the web interface at [my.economics.ca](http://my.economics.ca). The maximum length for

an abstract is 250 words. You will receive a notification once your paper is accepted or rejected. If your paper is accepted, it is expected that you will be prepared to serve as a discussant and/or program chair at other sessions within your areas of interest. Please direct all inquiries and correspondence to the CEA Executive Director, at [cea2016@economics.ca](mailto:cea2016@economics.ca).

Any member can propose a special session or sessions which may have invited papers. If you are interested in this possibility, please contact Nancy Gallini (at [cea2016@economics.ca](mailto:cea2016@economics.ca) ) before **January 31, 2016**. See the "Session Organizers" link on the conference web site for further information.

## ***CRESSE FELLOWSHIPS***

***Fellowships Available For Untenured Faculty, Doctoral Students and Post-Docs to Attend Leading Competition Policy Summer School and Conference in Rhodes, Greece, June-July 2016***

The Centre for Interuniversity Research and Analysis of Organizations (CIRANO) in Montreal, the Rotman Institute for International Business, in the Rotman School of Management at the University of Toronto and the Phelps Centre for the Study of Government and Business in the Sauder School of Business at the University of British Columbia (“the Centres”) are pleased to announce a partnership with the European Summer School and Conference in Competition and Regulation (CRESSE: [www.cresse.info/](http://www.cresse.info/) ). The goal is to encourage and facilitate greater participation by young Canadian economists in this world-class conference and summer school. In its eleventh year in 2016, CRESSE will feature presentations and teaching by some of the leading

competition policy experts in the world. More about this year's summer school and conference can be found at:

[www.cresse.info/default.aspx?articleID=3398](http://www.cresse.info/default.aspx?articleID=3398) . The summer school is ideal for those interested in competition economics but who, while trained in microeconomic theory and industrial organization, may have had limited opportunity for focused study in the field.

The Centres will jointly fund up to nine fellowships for economists to attend the full 2016 summer school (all nine modules) and conference which will run from June 25 to July 8, 2016 (with the conference taking place July 1-3, 2016). Both will be held on the island of Rhodes in Greece. These fellowships will cover all registration and tuition fees and will include up to C\$3,000 additional funding to cover air and hotel costs.

Those eligible for consideration for these fellowships will include economists who are: (i) Canadian Ph.D. students and post-doctoral scholars, and other doctoral and post-doctoral scholars studying or working in Canadian universities; (ii) untenured Canadian faculty members and other untenured faculty working at Canadian universities; and (iii) employees of the Competition Bureau of Canada.

To apply for a fellowship, or for further information, contact:

Professor Thomas Ross, Director

Phelps Centre for the Study of Government and Business

Sauder School of Business

University of British Columbia

Vancouver, BC, CANADA V6T 1Z2

Tel: (604) 822-8478 E-mail: [tom.ross@sauder.ubc.ca](mailto:tom.ross@sauder.ubc.ca)

Applicants should provide a letter or email expressing their desire to apply for a fellowship as well as the following: (i) for untenured faculty, post-doctoral fellows and employees of the Canadian Competition Bureau – a CV only; and (ii) for doctoral students (who may not necessarily be at the thesis stage) – a CV, list of graduate economics courses (taken and in process), and names and contact information of two references (but not letters). Applications are welcome now and will be received until all fellowships have been awarded. Interested applicants are encouraged to apply – or at least to express interest – as soon as possible. To facilitate travel planning, some fellowships may be awarded as early as December 2015 and we expect all fellowships to be awarded by April 1, 2016.
