Michael & Judi Denny

The CEA Secretariat, 1994—2004

The three words most frequently uttered in the Canadian Economics Association over the past decade have been “Ask Mike Denny.” As in “Who arranges the CEEE?” “I don’t know, ask Mike Denny.” “Where will the meetings be in 2006?” “I don’t know, ask Mike Denny.”

The CEA is pretty complicated organization, with an annual budget of around \$600,000, as much again in assets, two journals, an annual conference attracting around 700 people a year – and then there’s the annual employment exchange, relations with SSHRC, and the not unimportant task of representing the interests of Canadian economists.

Most people involved in the CEA just see one part of the organization, one part of Mike’s contribution. CEA Executive Council members know Mike’s the person who does the minutes and writes the cheques, and are a bit unclear about whether or not he’s the person who chairs the meetings. The journal editors know him as a person who fixes things, sorting out problems with publishers, SSHRC, and so on. Young economists first meet him at the CEEE, his jeans standing out in a sea of suits, hanging around the reception with a beer in his hand, the one person who seems to know everyone there. Blackwell knows him as the person who asks awkward questions about how the money is spent.

But all of this misses the big picture. The CEA has changed and grown rapidly over the past 10 years, and Mike Denny has provided guidance and counsel through all of these changes. We have become more international – the Canadian Journal of Economics is now published by Blackwell. Submissions are up, citations are up, and the journal’s profile has risen throughout North America and

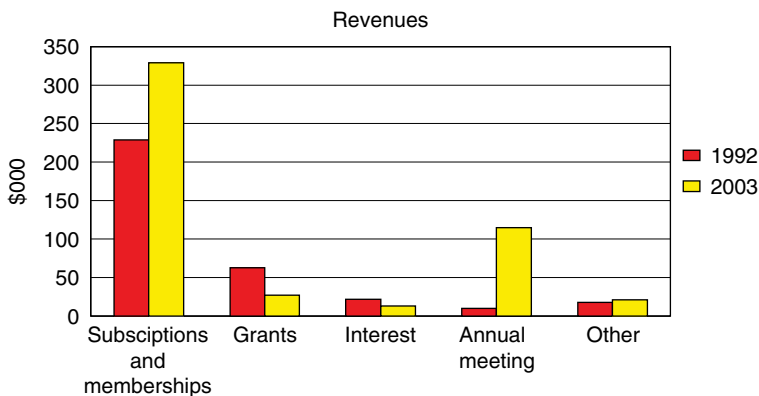

world-wide. Our meetings have grown. Since the CEA split away from the Learned, conference attendance has regularly been in the 700 range. We do more. Canadian Public Policy, though not officially a CEA publication, has an increasingly close relationship with the Association. The web page, economics.ca, was something that did not even exist when Mike took over. And we are in good financial health. The CEA now has enough assets to begin thinking about setting up endowments, and other projects to ensure the long-term health of the Canadian economics profession. Without Mike’s vision, knowledge, and ability to hold onto and keep track of all of these different strands, the CEA would not be in today’s position of strength.

Part of Mike’s success comes from being part of a team (and not just the MIT hockey team). For the past 10 years, Judi Denny has typed out the newsletters, kept the CEA filing cabinets organized, pulled together arrangements for dinners and meetings, drafted letters and mailed the cheques – she has been a second pair of hands holding the reins of the organization. Judi has kept a low profile in the organization (partly because the CEA meetings clash with peony season, making it impossible for her to attend), but those who have been closely involved in the organization know how much work she does.

Mike can now go back to being a regular CEA member – and having a bit more time for research, his farm, and being a granddad. Judi’s peony season will no longer be disrupted by travel grant cheques and the CEA newsletter. And we can say thank you, Mike and Judi, for giving so much to the CEA over all these years.

Finance/Finances

The CEA has changed substantially over the past 10 years. The chart marked “Revenues” shows the evolution of CEA revenues from 1992 to 2003. All amounts are in constant 2003 dollars. Canadian Public Policy is not in this picture – just the Canadian Journal of Economics and the Association.

Most of our revenue comes from subscriptions and memberships – more so in 2003 than in 1992. Within this revenue category, however, there has been steady change. All of the increase between 1992 and 2003 is due to increasing institutional membership rates. This reflects a deliberate decision to increase our reliance on institutional subscriptions in light of declining SSHRC funding. The amount the CEA charges for an individual membership has fallen in real terms since 1992, and the individual membership base has been fairly stable, resulting in lower revenue from individual memberships.

Grants are down sharply. Journal grants have decreased in real terms, and grants for the administration of the organization have disappeared. Most is due a decline in SSHRC funding, however some may simply be due to different accounting practices. Carleton gave generous grants to support the 2003 meetings, however these appear under annual meeting revenue rather than grants.

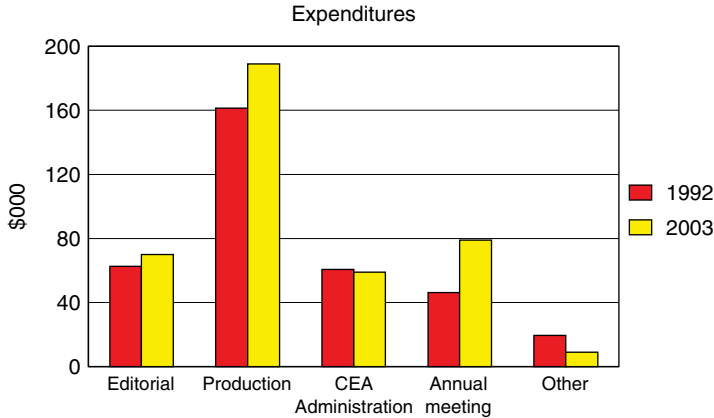

The biggest positive change has been in annual meeting revenue. Meetings revenue used to be a minor source of funds for the association; now it is the second largest. The meetings often lost money, in recent years they have made money. This is almost entirely due to breaking away from the Congress of Learned Societies. In 1992 most of the fees paid by members went to the Federation of the Humanities and Social Sciences to pay for conference organization costs, now all goes directly to the CEA. And in 1992 the meetings were in PEI, where the attendance was much lower than the 2003 Ottawa meetings. Since breaking away we have been more active in securing outside sponsorship – that, too, has had a positive effect on revenues (thank you to our sponsors!).

As a minor note – even though the CEA had substantially more assets in 2003 than in 1992, interest revenue fell, a simple reflection of declining real interest rates.

The figure labeled “Expenditures” shows how spending changed over the time period. Again, all amounts are in constant 2003 dollars. CEA administrative expenses fell in real terms. This is a testament to Mike Denny’s frugality, and somewhat surprising, given that the amount the CEA does – maintain a web page, run its own conference – as well as the size of the overall budget, rose dramatically over this time period. Part of the reason is lower “administrative” travel costs. Now that we regularly meet in places that are inexpensive to get to, such as Toronto and Montréal, the cost of flying Executive Committee members to meetings has declined substantially.

The CJE did not quite match Mike’s frugality, although expenditures are not unaffordable, and certainly expenditures have risen less than membership and subscription revenue. The increase in production expenses is associated with the move to Blackwell. New technology (electronic manuscript submission and so on) has not resulted in lower overall costs, although perhaps costs are lower than they would have been otherwise.

One thing that is perhaps surprising is that, given we are now organizing our meetings on our own, and paying all of the costs associated with registration

and administration, our annual meetings expenses have not increased all that much. Someone looking closely at these numbers and remembering the PEI conference might ask why (free umbrellas at the reception aside) it cost \$40,000. The CEA used to provide more travel assistance to graduate students and faculty out of its own funds than it does at present – these travel costs were a major component of the 1992 meetings costs.

A couple of interesting points about the CEA’s expenditures cannot be read off a chart. The first is that our largest expenditure – journal production – is more or less fixed, and outside of our control. The second is that, for an organization with a budget as large as ours, we have very little by way of office expenses. Much of our administrative work is done by academics (usually reimbursed with some sort of stipend or course buyout), whether it’s Werner Antweiler at University of British Columbia managing the web page or Tom Barbiero at Ryerson arranging the 2004 CEA meetings. We spend very little on conventional expenses like office rentals, computers, or administrative support. It has worked well so far, in part because the Association has been lucky to have committed and dedicated people who are willing to give so much to the organization. But as we rely less on outside organizations like the Congress and do more ourselves, and as our budget grows bigger, the work done our administrative people – Maureen Church in Calgary (CPP and the annual meetings), Isabelle Nelis in Montréal (CJE) and Peng Huang in Ottawa (CEA Secretariat) – is increasingly crucial to the organization.

The Future

In 2003 revenues comfortably exceeded expenditures, and the CEA has cushion in terms of assets. We are reaping the benefits of 20 years of sound fiscal management. The first challenge I see for the CEA is to avoid succumbing to the temptations of comfort: bloated administrative and personal budgets.

The second challenge is electronic distribution. In 1992 one of the most important things the Association did was put a hard copy of the CJE on every CEA members' desk. Now the journal can be accessed electronically in the time it takes to get up and walk over to the bookshelf. My own view is that the elasticity of demand for individual memberships is increasing. People access the CJE on-line, and join the organization in part for other benefits of membership, especially the Meetings. The Journal, in the long term, will increasingly rely on its institutional subscription base, and will grow by building international institutional subscriptions.

The CEA's mission is to promote economics in Canada; to serve, advance and promote the Canadian economics profession. We now have a large enough surplus to think about taking initiatives to secure the long-term future of the profession. Mike Denny is chairing a committee that will make recommendations on the future, and suggestions can be sent to him at denny@chass.utoronto.ca.

During my term as Secretary-Treasurer, I would like to get more people involved in the organization, especially young academics, and others outside established networks. I am concerned about the health of undergraduate economics programs, and how graduate students make the transition from Ph.D. to J.O.B. I would like to know what CEA members would like put on the agenda – to have an agenda set by the membership, rather than do agenda-setting myself. So get in touch – you can e-mail me at frances_woolley@carleton.ca or cea@carleton.ca.

*Frances Woolley
CEA Secretary-Treasurer*

CEA Conference/Conférence D'ace

The 2004 CEA conference at Ryerson University was a great success. The Programme Chair, CEA President Barbara Spencer, put together an excellent program. Tom Barbiero, the On-site organizer at Ryerson, together with the Chair of the Economics Department, Ingrid Bryan, did an extraordinary job in running the conference. Werner Antweiler made some major innovations to the Conference website to enable people to register and pay through his website. This has probably saved the CEA at least \$10,000 this year and will continue to save the CEA money as long as Werner continues to operate the website. Werner has also greatly improved the functionality of the website this year by improving the information available to the Conference Organizers. Maureen Church at the University of Calgary was Barbara's assistant. Maureen was able to keep everything on track by reminding the people involved what we need to do and when we need to do it.

Thanks to Werner, we now know much more about who comes to the CEA meetings. In 2004, this was the break-down of conference registration:

Group	Number	Percent
CEA members	332	49%
Non-members	136	20%
Students	214	31%
Total	682	100%

The 2005 CEA meetings will be at McMaster, with Gregor Smith as the Programme Chair and Jack Leach as On-site Organizer. Maureen Church has agreed to provide Gregor with administrative support, and now brings to the job a wealth of knowledge about the CEA meetings. Because of other conferences at McMaster, the meetings will be held one week earlier than usual, at the end of May.

There will be a major change in the submission process next year. People withdrawing from the program at the last minute have been an on-going source of headaches for programme chairs over the years – and imposed significant negative externalities on others who suddenly found themselves in two-paper or four-paper sessions. To give people an incentive to think seriously before submitting an abstract, people will be required to register for the conference when they submit their papers. Anyone whose paper is not accepted and chooses not to attend the conference will have their registration refunded.

The 2006 meetings will be at Concordia with Gérard Gaudet as Programme Chair, Ian Irvine as On-site Organizer. The CEA is looking for sites for 2007 and beyond. If you are interested in hosting the meetings, please get in touch with either myself at frances_woolley@carleton.ca or cea@carleton.ca, or with Barbara Spencer at Barbara.spencer@sauder.ubc.ca. The ideal CEA site is a place that most people can get to without changing planes, and which has good restaurants. Volunteers from Vancouver would be particularly welcome.

Prizes/Prix

Every year the Association, the Journal, and CPP award a number of prizes to recognize excellence in publication and research. Here are this year’s winners. Congratulations to all.

Harry Johnson Prize

Each year the Harry Johnson Prize is awarded to the authors of the best article in the CJE. The winners in 2003 are:

Curtis Eaton and Mukesh Eswaran for their article, “The Evolution of Preferences and Competition: A Rationalization of Veblen’s Theory of Invidious Comparisons”, November 2003, Vol. 36(4)

This marks the first time the Harry Johnson Prize has been won by a serving CEA President.

John Rae Prize

The CEA offers the Rae Prize every two years. The Prize is intended to recognize research excellence in the recent past and is not a life-time award. The Prize has a cash value of \$2000. The Prize has been named after John Rae, born in Scotland in 1796, who did most of his work in Canada and was a genuine precursor of endogenous growth theory.

The winner of the 2004 John Rae Prize is Walter Bossert, of Universite de Montreal. Since receiving his doctorate from Universitat Karlsruhe in 1988, Professor Bossert has published over 50 articles in numerous journals including *Econometrica*, *Journal of Economic Theory*, *Journal of Public Economics*, and *Social Choice and Welfare*. His current research is on altruism, discounting and number-sensitive population principles. Professor Bosserts work epitomizes excellence in economic research.

John Vanderkamp Prize

Canadian Public Policy/Analyse de Politiques is pleased to announce that the winner of the John Vanderkamp Prize for the best paper published in the Journal in 2003 is:

Glenn W. Harrison, James P. Feehan, Alison C. Edwards, and Jorge Segovia, "Cigarette Smoking and the Cost of Hospital and Physician Care", XXIX no. 1 (March) 2003.

The Vanderkamp Prize is awarded annually. The recipient receives \$1,000. The winning paper is selected by a multidisciplinary panel.

We would also like to mention the following paper for honourable mention: L.S. Wilson, "Equalization, Efficiency and Migration: Watson Revisited", XXIX no 4 (December) 2003.

Purvis Prize

The 2003 Doug Purvis Memorial Prize was awarded to Brian Copeland (Economics, University of British Columbia) and Scott Taylor (Economics, University of Calgary) for their book *Trade and the Environment: Theory and Evidence* (Princeton University Press, 2003). Brian Copeland received the \$10,000 prize at the Purvis Lunch held June 5, 2004 as part of the 38th Annual Meeting of the of the CEA held at Ryerson University. Copeland's and Taylor's book provides a timely contribution to the Canadian policy community given the importance of trade for the Canadian economy and the intensifying Canadian debate over environmental policy.

The Doug Purvis Prize is awarded annually to the authors of a highly significant, written contribution to Canadian economic policy. The award was established in 1994 in honour and memory of noted Canadian economist Doug Purvis. The competition is open to all forms of print media in which material relevant to Canadian economic policy appears, including books, single articles in scholarly journals, government studies including monographs done for royal commissions, think tank reports and a series of articles in newspapers or magazines. The Doug Purvis Memorial Prize selection committee is made up of five Canadian economists from academia, government and the private sector. This year's committee was comprised of Ralph Winter, Jack Mintz, Michael King, John Hoicka and Herb Emery. For more information on the Purvis Prize, you can visit the Doug Purvis Foundation's web site, <http://www.dougpurvis.org>.

Mundell Prize

The Canadian Economics Association is proud to introduce the Robert Mundell Prize to the “young” author or authors of the paper judged to be the best paper published in the Canadian Journal of Economics in the previous calendar year.

The prize, worth \$1,000, was awarded for the first time in 2004, for articles published in the years 2002 and 2003. The selection of this year's award was made by a committee consisting of Allan Gregory (Queen's University), Jane Friesen (Simon Fraser University) and Ralph Winter (University of British Columbia). The prize was awarded at the Canadian Economics Association Meetings in June 2004 to Karen Ruckman (Concordia University) for her article entitled “Expense Ratios of North American Mutual Funds,” which appeared in the February 2003 issue of the Journal.

Other News/Autres Nouvelles

Anyone involved in an “alphabet soup” group, e.g. CPEG, CLEA, CETC and so on, is invited to submit information for this newsletter. We have made every effort to publish conference information for all groups, and updated the links to other organizations on the CEA web page. But I would like to do more, so if you have information about your group, please send it to me at frances_woolley@carleton.ca.

Canadian Employment Research Forum (CERF)

It has now turned into something of a tradition for the Canadian Employment Research Forum (CERF) to hold a conference in conjunction with the annual CEA meetings, starting the day before the annual meetings and running over into the first (Friday) morning.

CERF is an organization which brings together academic researchers and government researchers and policy makers with interests in the areas of labour market and social policy. It started a little over a decade ago and since then has hosted several conferences a year, ranging from focussed workshops to large, general conferences. The topic for the conference run in conjunction with the CEA meetings each year is chosen to combine broad appeal with a direct policy focus.

This year's conference focussed on the measurement of and policies related to poverty (or what Statistics Canada calls low income status). The format of the conference was purposefully chosen to allow time for discussion of the various papers and the over 100 participants made active use of that opportunity. This, combined with the high quality of the papers, resulted in a lively, high quality debate. As usual, CERF tries to bring together not just top notch participants from government and academia in Canada, it also brings in foreign experts to inform and broaden the debate. This year's list of invitees included Bob Gregory from Australia and Greg Duncan, Peter Gottschalk, Jeff Grogger, and Jeff Smith from the US – all acknowledged experts in the area of policies related to helping people out of low income status.

In the next year, CERF is planning conferences on workplace issues using the matched worker-employer data in the WES. The conference to be run in conjunction with the CEA's will be organized by Tom Crossley. For more information, please see the CERF web site at www.cerf.mcmaster.ca or e-mail Tom at crossle@mcmaster.ca.

David Green, UBC

China's Women Economists Network (CHWEN)

China's Women Economists Network (CHWEN) came into birth at the 3rd China Economic Annual Conference (CEAC), held in Shanghai, China, on December 21st, 2003.

The idea of CHWEN was first initiated back in May 2002, when the first research training and mentoring program for Chinese young women economists was held in Peking University with the sponsorship of Ford Foundation. Fifteen young women economists from universities and research institutes of all parts of China attended the program. Under the guidance of renowned economists from both China and overseas, they have further strengthened their research capability. During the train session, these young economists felt a strong need to establish a network for better communication and information sharing, as well as cooperation and capacity building.

The development of CHWEN has received warm support from overseas. Professor Xiao-yuan Dong from University of Winnipeg, Canada, organized a special session entitled "The Status of Women in Economic Professions"

at the 3rd CEAC with the grants from the Ford Foundation. At the session, Professor Joyce P. Jacobsen from Wesleyan University, U.S.A. and Professor Roberta Robb from Brock University, Canada, introduced the experience of the Committee of the Status of Women in Economics Professions (CSWEP) in the United States, Canadian Women Economists Network (CWEN), and women economists organizations in other parts of the world in promoting gender equality in economic education and research. These international scholars joined Chinese women economists celebrating the birth of CHWEN at the conference and serve on the advisory committee of the organization.

The CHWEN wishes to improve the status of women economists and gender research in China. For more information, please contact Xiao-yuan Dong at dong@uwinnipeg.ca.

*Xiao-yuan Dong,
University of Winnipeg*

Progressive Economics Forum (PEF)

The Progressive Economics Forum has been involved in a number of activities in 2003–04. The results are in for the PEF Annual Student Essay Contest. Erin Wilson (Concordia University) was the 2004 Undergraduate winner. Daniel Kinderman (Cornell University) won the 2004 Graduate competition. The Summer 2003 and the Spring 2004 issues of the PEF Newsletter, *Signalling Left* were published and distributed to members. In addition to updates on activities the newsletters contain a selection of short articles of interest to progressive economists, as well as selected book reviews. The PEF continues to be active at the CEA annual meetings. At the 38th annual meetings in Toronto, the PEF sponsored 4 complete sessions, and was a co-sponsor (with the C.D. Howe Institute) of a session on “Free Trade in North America 10/15 Years Later.” The PEF also held its Annual General Meeting during the CEA Meetings. Mark Weisbrot (Co-director, Center for Economic and Policy research, Washington, DC) was the keynote speaker.

The PEF is active as a network for progressive economists and distributes information and notices to its members concerning conferences, symposia, special events and job openings that are of particular interest to progressive economists. A new and expanded Membership Directory has been distributed to members. The PEF maintains a webpage which can be found at www.web.net/~pef/.

William N. Holden, Robert J. Oxoby and Peter R. Tracey	“Popular Profs” in the 2004 Macleans Guide to Canadian Universities
University of Guelph	
Thanasis Stengos	University Research Chair, July 1, 2004
Louis Christofides	University Professor Emeritus, July 1, 2004
Marion Steele	College Professor Emeritus, July 1, 2004
Burc Kayahan	GTA Teaching Award, College of Social and Applied Human Sciences
Umut Oguzoglu	GTA Teaching Award, College of Social and Applied Human Sciences
University of Manitoba	
Laura Brown	Promotion to Associate Professor
Betsy (Elizabeth) Troutt	Promotion to Associate Professor
Melodie Friesen	M.A. SSHRC Fellowship
Laura Lamb, PhD Student	Faculty of Arts Graduate Student Teaching Excellence Award
Ahmed Tazmeen, PhD Student	Faculty of Arts Graduate Student Teaching Excellence Award

(continued)

(concluded)

Name	Awards
Université de Montréal	
Rui Castro	W.E. Upjohn Institute for Employment Research mini grant
René Garcia	Titulaire de la Bourse de recherche de la Banque du Canada, 2004
University of Victoria	
Alok Kumar	Governor General's Gold Medal from Queen's University, June 2004
David Giles	Faculty of Social Sciences award for Excellence in Teaching from the University of Victoria
University of Western Ontario	
Audra Bowlus	Glenn Campbell Fellow, July 1, 2003 to June 30, 2008

Short-term Visitors/Futurs Visiteurs

Name	Home Institution	Dates of Visit
Bank of Canada		
Steve Ambler	Université du Québec à Montréal	
Jean Boivin	Columbia University	
Michael Bordo	Rutgers University	
Rasmus Fatum	University of Alberta	
Fabio Ghironi	Boston College	
Louis Phaneuf	Université du Québec à Montréal	
Lynette Purda	Queen's University

Université de Montréal		
Jianbo Zhang	Southwest University of Political Science and Law, China	Automne 2004 et hiver 2005
Andreas Weiske	Technische Universität Dresden	Septembre 2004 à octobre 2005
University of Saskatchewan		
Yonghong Tao	Agricultural Economics and Information, Xinjiang, China	May 1, 2004 to April 30, 2005
Ebrahim Hassanpour	University of Tehran	February 1 to October 31, 2004
Dan Rickman	Oklahoma State University	August 1 to November 1, 2004

(continued)

(concluded)

Name	Home Institution	Dates of Visit
University of Victoria		
Ian King	University of Auckland, NZ	July to December 2004
Roderick Hill	University of New Brunswick	September 2004 to April 2005
University of Waterloo		
Yoginder Alagh	Sardar Patel Institute of Economic and Social Research, Ahmedabad, India	April 2004 for one year, Joint with CIGI (The Centre for International Governance Innovation)

Ph.D. Students

Name	Date	Title of Thesis
Carleton University		
Angela Zeiler	June 2003	Horizontal Mergers under Localized Competition
Jamal Hejazi	December 2003	Three Essays on Inflation Targeting
Sean Cahill	April 2004	Public Infrastructure, Input Efficiency and Productivity Growth: An Applied Analysis
Rose Cunningham	May 2004	Estimating the Effects of Finance Constraints and Social Learning on Inventory Investment, Trade Credit and Capital Investment Decisions
Concordia University		
Jean-Eric Tarride	May 2004	New Econometric Models for Longitudinal Count Data with an Excess of Zeros: Two Applications in Health Economics
Dalhousie University		
Ibnu Widiyanto	May 2004	Essays on Growth, Productivity and the Oil Industry in Indonesia

(continued)

(continued)

Name	Date	Title of Thesis
Queen's University		
Marina Adshade	June 2004	Female Labour Force Participation in an Era of Technological and Organizational Change
Andrew Leach	June 2004	Three Papers on the Economics of Climate Change
University of Alberta		
Mohamed S. Gheblawi	Spring 2004	Estimating the Value of Stochastic Irrigation Water Deliveries in Southern Alberta: A Discrete Sequential Stochastic Programming Approach
University of British Columbia		
Robert Petrunia	May 2004	Essays in Firms Dynamics
University of Manitoba		
Rosmy Jean Louis	April 2004	Three Essays on North American Monetary Union
Ehsan Latif	May 2004	Three Essays on Health and Aging in Canada
Université de Montréal		
Andrei Semenov	janvier 2004	Intertemporal Utility Models for Asset Pricing: Reference Levels and Individual Heterogeneity
Denis Pelletier	juin 2004	Problems in Time Series and Financial Econometrics: Linear Methods for VARMA Modelling, Multivariate Volatility Analysis, Causality and Value-at-Risk
University of Ottawa		
Jie Yang	June 2004	Three Essays on the Economics of Household Formation and Dissolution
Kirk Collins	June 2004	Essays on Human Capital and Taxation (continued)

(concluded)

Name	Date	Title of Thesis
Yiagadeesen Samy	October 2003	Trade and Labor Standards: A Theoretical and Empirical Analysis of the Linkages
University of Saskatchewan Morteza Haghiri	2003	Stochastic Non-Parametric Frontier Analysis in Measuring Technical Efficiency A Case Study Of the North American Dairy Industry
Mohammad Mahbobi	2003	Three Essays on Dumping and Predatory Pricing In International Trade
Monika Cule	2004	Corruption, The Unofficial Economy and the Provision of Public Goods in Transition Countries
University of Toronto Jun Yang	November 2003	Empirical Estimation of Default-free and Defaultable Term Structure of Interest Rates
Catherine Deri	December 2003	Essays in Immigrant Health and Health Service Utilization in Canada
University of Victoria Lauren Bin Dong	November 2003	Empirical Likelihood Methods in Econometrics
University of Western Ontario Andy Baziliauskas	June 2004	Essays in Competition and Contracting
Philip Curry	June 2004	Applications of Game Theory: Evolution and the Law

Conferences/Conférences

Canadian Law and Economics Association Annual Conference, September 17 and 18, 2004, will be held at University of Toronto. Registration information and a draft program can be found at <http://www.chass.utoronto.ca/clea>

IIIème Colloque International du Réseau Monder, 12–15 Septembre 2004, Hôtel Loews Le Concorde, Laval University
Contact: Martine Guay, mguay@ecn.ulaval.ca or (418)656–2096

Government Budgeting and Fiscal Sustainability in New Brunswick, September 24, 2004, will be held at Wu Conference Centre, Chancellor's Room, University of New Brunswick Campus. Sponsored by Policy Studies Centre, Department of Economics, University of New Brunswick
Contact: Joe Ruggeri (ruggeri@unb.ca), (506) 447-3320 or Fax: (506)-453-4514

Financial Econometrics, 21th Canadian Econometrics Study Group Conference, September 24 to 26, 2004, will be held at York University, Toronto, Ontario. Sponsored by chair Hydro-Quebec, CREST, CIRANO, Institute for Social Research at York University, Fields Institute at University of Toronto
Contact: Deborah Groves, Department of Economics, York University, Toronto, Ontario M3J 1P3, Canada, Fax: (416)736-5987

14th annual meeting of the Canadian Resource and Environmental Economics Study Group, October 1 to 3, 2004, will be held in Calgary, Alberta. Sponsored by University of Calgary. Registration information and a draft program can be found at <http://www.tri.ucalgary.ca/cree/>.
Contact: Elizabeth A. Wilman, eawilman@ucalgary.ca.

Canadian Experimental and Behavioral Economics Workshop October 2–3, 2004, University of Calgary.
Contact: Robert J. Oxoby, oxoby@ucalgary.ca.

Transports en commun et transports routiers urbains: qui doit payer?, October 6 to 8, 2004, Université de Montréal. Commandité par: Société de transport de Montréal (STM) et Syndicat Mixte des Transports pour le Rhône et l'Agglomération Lyonnaise (SYTRAL)
Contact: Marc.Gaudry@UMontreal.ca, Jean-Michel.Levesque@STM.info

Human Capital, Productivity and the Labour Market, October 15 to 17, 2004, will be held at Spencer Conference Centre, London, Ontario. Sponsored

by Canadian Imperial Bank of Commerce (CIBC) and the University of Western Ontario

Contact: Chris Robinson (robinson@uwo.ca)

Heterodoxy and Orthodoxy in Economic Analysis, 2004 Department of Economics Annual Delta Marsh Conference, October 29 to 30, 2004, will be held at University of Manitoba Delta Marsh Field Station. Sponsored by Department of Economics, University of Manitoba

Contact: F. Baragar (baragar@cc.UManitoba.CA) or (204)474-9005

Canadian Macroeconomics Study Group Conference, November 5 to 6, 2004. Registration information and a draft program can be found at www.econ.uqam.ca/cmsg.

Monetary Economics (by invitation only), March 10 to 13, 2005, will be held at Spencer Conference Centre, London, Ontario. Sponsored by Bank of Montreal Chair and the Department of Economics at the University of Western Ontario

Contact: David Laidler (laidler@uwo.ca)

Canadian Economic Theory Conference, May 2005, will be held at the University of British Columbia. All of the conference information will be posted at <http://microeconomics.ca/cetc.php> when it becomes available

Contact: Mike Peters, at peters@econ.ubc.ca

Canadian Public Economics Group (CPEG) 2005 annual conference, May 26 to 27, 2005, will be held at McMaster University, Hamilton, Ontario. For more information about CPEG and its upcoming conference, please visit www.cpeg.ca or email organizer@cpeg.ca.

Recent Working Papers/Récents Cahiers de Recherche

I plan to discontinue the recent working papers section in the next CEA/ACE newsletter, as it adds considerably to the time required to prepare the newsletter and to printing costs. Moreover, working papers can be posted and searched on the Ideas web site, <http://ideas.repec.org/>, more effectively than in this newsletter.

If you have strong views on this subject – if you are strongly in favour of retaining or discontinuing the section – please contact me at frances_woolley@carleton.ca or at cea@carleton.ca. A possible middle-ground is providing working paper information in an electronic-only version of the newsletter.

The information in this *Newsletter* is based on questionnaires completed by chairs of Economics departments in Canadian universities and on unsolicited submissions. The latter may be sent to:

Professor Frances Woolley
Secretary-Treasurer, Canadian Economics Association
Department of Economics, Carleton University
1125 Colonel By Drive, Ottawa, Ontario Canada K1S 5B6
Email: frances_woolley@carleton.ca
Tel: (613) 520-2600 extension 3756
Fax: (613) 520-3906

Items for the February 2005 Issue must be received by December 15, 2004

L'information contenue dans cette *Chronique* est basée sur les réponses reçues au questionnaire complété par les directeurs des départements d'économiques des universités canadiennes, et aussi sur des soumissions non-sollicitées d'information. Faire parvenir ces dernières à:

Frances Woolley
Canadian Economics Association
Department of Economics, Carleton University
1125 Colonel By Drive, Ottawa, Ontario Canada K1S 5B6
Email: frances_woolley@carleton.ca
Tel: (613) 520-2600 extension 3756
Fax: (613) 520-3906

L'information à paraître dans le numéro de février 2005 doit être reçue avant le 15 décembre 2004.

Published by the Canadian Economics Association, Department of Economics, Carleton University.

This Newsletter is produced twice yearly and mailed free of charge to all members of the Canadian Economics Association. For additional copies or further information contact Professor Frances Woolley, at the above address. Printed in Canada/Imprimé au Canada

Questionnaire

- 1) Did you read the following parts of this newsletter (circle all that apply)
 - a. Association news (Denny tribute, Finances, etc)
 - b. New appointments
 - c. Short-term visitors
 - d. Conference information/calls for papers
 - e. Working papers
 - f. Forthcoming papers in CPP/AP or CJE/la Revenue
 - g. Only this questionnaire
- 2) Do you favour discontinuing the working paper listings
 - a. Yes
 - b. No
- 3) Would you like to see more
 - a. Profiles of people in the profession
 - b. Articles dispensing good advice (e.g. how to prepare for your first job talk or retirement)
 - c. General interest articles (e.g. why do economists get so few SSHRC grants)
 - d. articles en français
 - e. None of the above, keep it as it is
- 4) Any other comments:

Please send replies to me electronically at frances_woolley@carleton.ca or tear this off and mail to Professor Frances Woolley, Department of Economics, Carleton University, 1125 Colonel By Drive, Ottawa, ON K1S 5B6
